

SGS NORTH AMERICA, INC.

Date: June 7, 2017

Application Examiner

Subject: Emergency Traffic Systems, Inc.
FCC ID: **2AK93TR1**
Original submission

To whom it may concern,

Permanent Confidentiality

Request is hereby submitted by Emergency Traffic Systems, Inc. to withhold permanently from public review certain portions of the application FCC certification for the referenced FCC identifier. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Block diagrams
- Operational Description
- Tune Up Procedure
- Parts List

Rationale for request for confidentiality:

Emergency Traffic Systems, Inc. has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jeremy Pickens'.

Name: Jeremy Pickens
